

supporting your business

It's been six months since
we announced our new name - **Pillar**.
And we've also been able to announce
a new client too - **Print Super**.

*"Get your fund moving.
Talk to Pillar
Administration."*

Pillar offers:

- an administration system that is extremely robust, scalable and flexible to support your long term plans,
- support from a stable, well educated and experienced team. With a 2% turnover rate, it's probably the lowest in the industry, and
- value added services such as e-business development, trustee reporting, and education/marketing consulting.

Pillar is one of the largest superannuation administrators in Australia. We currently support 740,000 accounts across accumulation, defined benefit and allocated pension type schemes.

If you would like a full listing of our capabilities, email me today.
